

Analytical Text

“This small book was printed in India but I always keep it with me wherever I go. Also I made a lot of notes. This mainly explains the different views of the different schools of thought – mainly the view of the ‘Mind-Only’ school of thought [and] the ‘Middle Way’ school of thought. So I am very fond of this book. I consider it an important book.”

Scripture

“This scripture – actually when I left Lhasa only this book was with me. This is the explanation about how to practice – how to develop inner spiritual development step-by-step. I consider this a very important scripture. I myself practice according to its instructions. Almost more than five times I gave teachings from this text.”
